

LARAMIE COUNTY

JOB DESCRIPTION

TITLE:	Senior Building Inspector	FLSA:	Non-Exempt
DEPARTMENT:	Planning and Development	REVISED:	

Summary: Under General Direction, applies specific code, basic engineering, and technical construction knowledge to the review and inspection of building permit activities. Perform inspections of buildings and structures in all stages of construction, alteration and repair. Checks plans for new construction or alterations or remodeling for existing structures to ensure compliance with pertinent codes, accepted engineering practices and general land use standards and zoning regulations. Enforces building, plumbing, electrical, mechanical and housing codes, and applicable state and local laws. Issues building permits and certifications of occupancy. Confers with architects, contractors, builders and the general public in the field, office and at the counter. Investigate code violations or complaints.

Essential Job Functions: *(Essential function, as defined under the Americans with Disabilities Act, may include the following tasks, knowledge, skills and other characteristics. This list of tasks is ILLUSTRATIVE ONLY, and is not a comprehensive listing of all functions and tasks performed by positions in this class.)*

- Interprets, applies, and enforces the provisions of standard building codes, electrical codes, plumbing codes, mechanical codes, fire prevention codes, life/safety codes, energy codes, handicapped accessibility codes, and other applicable federal, state and local codes, laws, rules, regulations, specifications, standards, policies and procedures
- Checks and reviews building plans, site plans, plan revisions, specifications, previous inspection records, or other documents for conformance with various building codes and all applicable rules and regulations for either new construction or changes to existing structures for building permit issuance
- Review calculations to determine if structures are in compliance with codes, ordinances and all State, Federal and local regulations
- Reviews plans and permit files before performing inspections.
- Reviews building plans, determines permit fees, checks for code compliance, and resolves deficiencies with the builder.
- Approves plans, issues permits, and maintains files for permits and plans.
- Checks for expiration of plans, permits, and bonds and makes cancellations when required
- Issues building clearance for certificates of occupancy
- Researches code-related issues in code books as needed; initiates any actions necessary to correct deviations or violations
- Plans daily inspection schedules and travel routes to achieve maximum efficiency and ensure completion of scheduled inspections; drives to construction/property sites to conduct inspections and related work activities
- Conducts site inspections of residential/commercial buildings and industrial properties (including construction work, remodeling work, building systems, and premises) for compliance with applicable codes, specifications, and approved construction plans
- Inspects construction alteration, demolition, use, and occupancy of buildings and premises to verify structural strength, stability, sanitation, adequate lighting, ventilation, and safety to life and property from fire and other hazards; inspects mechanical, plumbing, gas, electrical, roofing, fire alarm, and related building systems; inspects foundations, slabs, footing, and framing; inspects swimming pools; inspects mobile homes; inspects construction methods and materials
- Assure proper and safe installations of routine and complex building systems

LARAMIE COUNTY
