Laramie County is currently working on Phase 1B of the WDH priority groups. Most local providers will be focusing on the 70+ population under sub-group 3 of phase 1B. The target population of each provider is bolded underneath their address. As more local providers are approved, this list will be updated with their information.

At this time, walk-ins will not be accepted at any of the providers due to logistical considerations with the amount of doses in each vial. Laramie County is committed to ensuring that each dose of opened vaccine is administered.
